

# E Series E1055W

A 10-megapixel camera with a host of advanced features.

Shown in silver. Also available:  Red  Black

Compact and feature-rich, the GE E1055W comes with the features amateur photographers want most. Its spacious 3-inch LCD screen comes with the latest Auto Adjust Brightness technology that delights your photo experience. A comprehensive 10-megapixel resolution, 5X optical zoom, and a 28mm wide angle lens lets you move easily from tight close-ups to wide group shots. Within its stylish 19.5mm ultra-slim body design, this high-quality metal construction body contains a host of advanced features including:

### 28mm Wide Angle Lens

Easily capture large group shots with the extra wide lens.

### Blink Detection

Blink Detection alerts you if a subject's eyes were closed so you can immediately retake the picture.

### Smile Detection

The shutter automatically releases when the smile appears so you can capture smiles the moment they happen.

### Face Detection

Face Detection automatically focuses and optimizes exposure for sharp, brilliant pictures.

### Image Stabilization

Overcome camera shake to help you take clearer, sharper pictures.

### In-Camera Panorama Stitching

Wide-view photos are produced by stitching three images into a single-panoramic picture.

### Auto Adjust Brightness LCD

The LCD screen adjusts to the existing lighting conditions so you can frame your picture properly.

### Red-Eye Removal

Remove red-eye immediately while viewing images on the LCD.
